

FLWEMS Paramedics Adult Protocol for the Management of:
UNIVERSAL PATIENT CARE

Indications

To outline the universal patient care procedures for all FLWEMS patient contacts.

Procedure

1. Scene safety assessment.
2. Summons for additional assistance as needed.
3. Initial primary & secondary patient assessment.
4. Secure an airway as outlined in FLWEMS Paramedics Adult Protocol for the Management of Airway & Ventilation and administer supplemental **Oxygen** as needed.
5. Assess vital signs to include:
 - Blood Pressure
 - Pulse Rate
 - Respiratory Rate
6. Assess extended vital signs as needed:
 - Oral or Rectal Temperature
 - SpO2
 - Glucose Levels (D-Stick)
 - ETCO2
 - Pain Scale Level
 - Electrocardiography Record (3 and/or 12 Lead)
 - Capnography Monitor
7. Determine appropriate FLWEMS patient care protocol and treat accordingly.
8. Contact Medical Control for patient conditions not address in these FLWEMS Out-of-Hospital Patient Care Standing Orders, Protocols, Medications & Procedures.
9. Transport to appropriate Emergency Department or receiving facility as needed.
10. Contact medical control for further orders as needed.
